Ingenuity

AUM Pierre Minassian brings back to the interior of the Hôtel des Horlogers the elements that we can find on a walk in the Risoud forest.

Trees, ammonite fossils, mycelium, dry stone walls and lakes, all of which can be found in the Vallée de Joux, were the source of inspiration.

Hotel des Horlogers offers 50 rooms and suites, with breathtaking views of the Risoud forest.

- 31 Valley Guest Room
- 7 Superior Guest Room

Cuisine signed by Emmanuel Renault

Emmanuel Renault is a French chef based in Megève, awarded three Michelin stars and voted "Meilleur Ouvrier de France".

After researching and carefully selecting seasonal produce from the region's finest producers, Chef Renault creates and signs all the menus at Hotel des Horlogers.

Brasserie Le Gogant

In local Combiere dialect, Le Gogant is an isolated silver fir of exceptional size.

With age, it reaches a size never before seen in the forest, becoming a shelter under which peasants come to eat.

Generous dishes and good times at any hour for the day “under Le Gogant”.

The Bar des Horlogers embodies the energy of local residents and watchmakers.

A friendly atmosphere to discover signature cocktails, made with local ingredients.

Snacks and plates to share are part of the menu, available 7 days a week.

The place to be in the Vallée de Joux!

Liberation

Time restrictions are replaced by the liberating feeling of taking time for oneself and connecting with nature.

"Our mission is to harness the full intelligence of nature to defy the passage of time."

-Alexandre Flueckiger, Founder & CEO

The Spa by Alpeor

Unlocking the inner workings of the living world, harnessing the power of plants, reproducing their incredible virtues, and transmitting them to your skin.

Alpeor's research calls on no less than three scientific disciplines (phytotherapy, photochemistry, and dermatology) to create innovative technological skincare products inspired by the genius of nature.

This multi-disciplinary approach enables Alpeor's experts to master the origins of aging and to bring out tomorrow's anti-aging and relaxing solutions from plants.
